

# ARK CHEW TOOLS

## 3 Color-Coded Toughness Levels\*

1

### STANDARD Soft & Chewy

This is the softest level in any given shape. It's very chewy - you can really "sink your teeth" into it.

Recommended for mild chewers who don't usually chew through things. If you're not sure which level to get, start here.

### XT "Xtra Tough"

This is the middle level. It's firmer, but still chewy and resilient. A good "middle of the road" option.

Recommended for moderate chewers who sometimes chew through things.

### XXT "Xtra Xtra Tough"

This is the toughest level. It's VERY firm with a lot of resistance.

Recommended for avid chewers who frequently chew through tough things. Although no chew tool is indestructible, this is usually the longest lasting level for very heavy chewers.
